Experience

Associate Software Developer | [Oodles Technology](#)

Nov 2025 – Present

Gurugram, Haryana

- Built and customized **Odoo ERP** modules using **Python** and **XML**, implementing a multi-company system with **role-based access control (RBAC)** for Super Admin, Company, and Public roles, improving scalability by **30%**.
- Designed backend business logic, automated workflows, and XML views, reducing configuration errors by **25%** and improving system reliability.
- Resolved critical bugs and optimized ORM models within a **4-member Agile/Scrum** team, improving API response time by **15%**.

Software Developer Intern | [MPYG Technology](#)

Mar 2024 – Feb 2025

Remote

- Engineered an **AI-powered** yoga web application using **React.js** and **Node.js** with real-time pose estimation, increasing user engagement by **25%** and cutting load time by **35%**.
- Refactored front-end components and introduced **lazy loading** and **code splitting**, boosting performance scores by **20%**.
- Delivered new feature modules and resolved critical defects in a **6-member Agile** team, maintaining design-system consistency.

React Developer Trainee | [Solitaire Infosys](#)

Jul 2022 – Aug 2022

Mohali, Punjab

- Built a responsive stray-animal adoption platform using **React.js** and **Bootstrap**, validated by 50+ users across three Agile sprints.
- Implemented **modular UI components** and **client-side routing** via React Router, improving navigation efficiency and code maintainability.
- Streamlined Git branching and merge-request workflows, reducing merge conflicts by **40%**.

Skills

- **Languages:** Python, JavaScript, TypeScript, C++, Java, Data Structures & Algorithms, OOP
- **Frontend:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, REST API Design, Prisma ORM, Zod
- **Databases & Tools:** MongoDB, MySQL, PostgreSQL (GCP), Git, GitHub, CI/CD, Postman, VS Code
- **Data / ML:** Pandas, NumPy, scikit-learn, Matplotlib, Linear Regression, LSTM
- **Practices:** Agile, Unit Testing, Code Review, Open-Source Contribution

Education

Chandigarh Engineering College, Landran

Aug 2020 – Jun 2024

Bachelor of Technology in **Electronics and Communication Engineering**

CGPA: 8.20

Projects

Stock Price Prediction Model | [GitHub](#)

Feb 2025

- Developed an end-to-end **ML pipeline** for stock price forecasting using **Pandas**, **NumPy**, **scikit-learn**, and **Matplotlib**, achieving **87% accuracy**.
- Benchmarked **Linear Regression** and **LSTM** models to maximize prediction reliability and minimize RMSE.

Quanta AI – SaaS Content Generation Platform | [Website](#)

Aug 2024

- Architected a **multi-tenant SaaS** platform using **Next.js**, **Prisma ORM**, and **PostgreSQL**, integrating Clerk authentication, **Stripe** payments, and real-time AI chat.
- Deployed on **Vercel** with **Incremental Static Regeneration (ISR)**, improving response time by **28%** and increasing user retention by **25%**.

Achievements

- Solved **500+ coding problems** on LeetCode, HackerRank, and GeeksforGeeks, strengthening proficiency in data structures and algorithms.
- **Vice President – TechComm Society:** Organized and led **8+ technical events** with 400+ student participants, demonstrating leadership and stakeholder coordination.
- **Open-Source Contributor – Hacktoberfest (2022 & 2025):** Added new tools like Form Builder and Hash Generator and enhanced features across community-driven GitHub repositories.
